

Allison Adlich

Warrensburg, Missouri

Bullex Fire Extinguisher Trainer

Allison Adlich has been a Girl Scout for 10 years and is in Troop 5333 in Service Unit 657. She is currently a sophomore at Warrensburg High School.

For her Gold Award Project, Allison created a fire safety program for her community. She felt if people were properly taught how to put out fires, there would be less damage and fire injuries in her community. Extinguishing a fire is an intimidating task, especially when you're not familiar with the equipment to properly do so Allison organized a community spaghetti dinner and silent auction to solicit donations from its generous citizens to purchase a Bullex Fire Extinguisher Trainer that allows people to safely and economically practice extinguishing a fire and hosted workshops on how to use it.

Allison worked with the Warrensburg Fire Department to research and purchase the Bullex Trainer as well as host workshops in schools and commercial businesses. The Fire Department will be able to use the trainer for up to 10 years, teaching over 10,000 people in that time to properly extinguish fires.

Because of Girl Scouts, I have learned better social skills, problem-solving skills, and business etiquette. I am also more interested in my community and how to solve the problems that occur. I made new friends and learned how to be a better peer and leader in my school.
