

The Mission for Health: An Education Connection

Amanda Munsell

Lee's Summit, Missouri

Amanda Munsell has been a Girl Scout for 12 years and is in Troop 1248 in Service Unit 649. She is currently a junior at The Barstow School.

Amanda's Gold Award Project addressed the lack of health education in private and charter schools. To solve this problem, Amanda created a curriculum that can be implemented for years to come. Over 500 people have watched the video and an online class will be available at Barstow in the fall of 2019. Amanda's work will be sustained beyond her involvement through the staff at The Barstow School, as well as, the online class for students.

Amanda is especially proud that she was able to create an effective mode of communication between students and administrators. She hopes that in the future other students will continue to work to make the school a better place.

Because of Girl Scouts, I have had the opportunity to travel around the globe and make an international network of Girl Scout sisters.
