## Letterboxing at Camp Tongawood

### Letterboxing Trail

These letterboxes will take you all over camp; you can do them all at once, or plan to look for each one as you're heading to other activities. Please remember to replace the letterbox exactly where you found it, and if anything is damaged or missing please e-mail [campdept@gksmo.org](mailto:campdept@gksmo.org) with the details.

1. This letterbox is hidden in a small wooded area behind a kiosk that greets you as you enter camp. If you go to the kiosk, take 10 steps towards the wooded area and you should find the letterbox at the base of a tree.
2. You walk past this letterbox when you head into the lodge. It is under a tree that does not lose its leaves in the winter. The tree that the letterbox is under is close to the fire circle.
3. This letterbox is behind the traverse wall. If you walk behind the wall and find the path that goes from the clearing to the road, you are close! Now look for a fallen tree in the wooded area by the path, and the letterbox is in the crook of the fallen tree.
4. This letterbox has a lovely view of the pond. If you stand on the porch of the outpost, you are very close to the letterbox. This letterbox is probably the most protected from the weather because it is under something that was built by a person.

## Making Friends Letterboxing Trail – Created by Troop 4121 in SU 604

These letterboxes will take you all over camp; you can do them all at once, or plan to look for each one as you're heading to other activities. Please remember to replace the letterbox exactly where you found it, and if anything is damaged please e-mail [campdept@gksmo.org](mailto:campdept@gksmo.org) with the details. You will need a personal stamp, ink pad, and a pen for this trail. Each letterbox contains a stamp with a letter on top, which is part of the mystery word you try to unscramble at the end of the trail.

1. Start at the Tree House. From the trunk of the Tree House, take the trail heading NE, crossing the gravel road. From the NE side of the gravel road, take 50 steps continuing down the path. Look for a tree that would take about four Girl Scout sisters joining hands to reach all the way around the tree. Join hands and hug the tree. While hugging the tree, look down to find Box 1.
2. From the Hugging Tree, head South up the trail towards the tree trunk of the Tree House. From the Tree House trunk, continue heading South towards the pool. When you arrive at the pool, go to the West side of the pool fence. Follow the fence to the South corner of the pool. With a Girl Scout sister, look for the tree with a Nature Trail sign. Take 25 steps SW to the Nature Trail tree to find Box 2.
3. From the Nature Trail tree, head South/SW on the trail. Go past marker 21 and the "Five Finger" trees. Give your Girl Scout sisters a "High-Five" to celebrate getting this far. Look inside the circle the "Five Finger" trees created to find Box 3. HINT: One of the five trees has an old Pool sign on it.
4. From the "Five Finger" trees, take 11 steps South back to the path. Head East on the trail past the Flint sign. Continue East on the path past the flat "Picture" rock to the North. The rock is wide enough for a couple Girl Scout sisters to stand on side-by-side. If you have a camera, take a picture with your Girl Scout sisters! Keep walking, locate marker 18. Take 12 steps from marker 18 NW to the Triplet Tree to find Box 4.
5. Head East along the path and cross over the silver drain pipe. Continue SE on the path. Locate marker 15. On the NE side of the trail locate a tree that will never be alone to find Box 5.
6. From the "Twinsie" tee, head East on the trail. Pass under the tree that bends over the path. Follow the trail as it turns North. Continue North on the path past the "Hole" tree. When you get to the clearing at the end of the path, take 15 steps NW to the two "Fungus" trees. Look in between the "Fungus" trees to find Box 6.
7. Congratulations! Now you have all 6 letters from the 6 letterboxes you found on this trail. Sit down with your Girl Scout sisters and unscramble the letters to find out one of the most important things a Girl Scout can be to another Girl Scout.

9 boxes

For this letterboxing adventure you will need a pen, a piece of paper for recording letter clues and lots of stamina! Find each box, leave a stamp, troop # SU # and date. - Box #4- continue on the trail up the rocky slope to the fairy house. Look where the fairies dwell. Look high, look low... check every corner (especially the NE corner)
- Box #5- head east past the fairy house toward the buckboard gazebo/shelter stay to the left and from the gazebo go east towards the road take the road north towards the archery range. Near the entrance to the archery range look to the right for a tree that WAS "5 sisters", but now is 4... the one which has "passed" is hiding the secret.
- Box #6- from the archery range entrance go west on the road towards pack train and sunset rock. At pack train gazebo follow the trail by the storm shelter towards sunset rock. Cross over the bridge and then turn back and look under the tread.

- Box #7-back track and take the trail that goes between the gazebo and the latrine, back towards the archery range. Head south on the road toward the STAFF HOUSE and the rappel wall. The box is hidden under a place of “refuse”
- Box #8- Head back on the main road towards the home of a night bird. When you reach the home of the night bird enter the protected area surrounding the home and look towards the eaves.
- Box #9- you’re almost done! Head towards the lodge and look for a place where you can take shelter from a storm.

Congratulations! You made it! Now to unscramble the two- word phrase...

- Sitting right in front of you is a tree with a sign that says “Conestoga Camp Ground” Begin searching near that tree for another box

- Take a right toward Dew lit center, and continue until you come to the path for the amphitheater and you know you’re where you need to be when you see a message of peace
- Stick to the right and follow the trail
